Summary

Final-year Computer Science student with hands-on experience in building AI-powered applications and working with agentic workflows. Proficient in Python, prompt engineering, and deploying ML models using TensorFlow and Scikit-learn. Successfully completed an AI-focused internship involving chatbot development and prompt design, and currently developing a full-stack AI assistant inspired by J.A.R.V.I.S. Passionate about autonomous systems, experimentation, and integrating research into scalable code.

Education

Bachelor of Engineering (B.E.) – Computer Science, Rajeev Institute of Technology, VTU Belgavi Expected 2026
CGPA: 8.47

Senior Secondary (PUC – PCMB), STG PU College 2019 – 2021
Percentage: 89.5%

Internship Experience

AI & Prompt Engineering Intern, VaultofCodes – Hassan, Karnataka Jun 2025 – Jul 2025

- Designed and tested prompt structures to improve large language model outputs in chatbot systems
- Developed an AI chatbot using Gemini API and Flask, showcasing prompt-response optimization
- Applied foundational ML concepts for interaction optimization and conducted small-scale experiments
- This project inspired and evolved into the J.A.R.V.I.S AI assistant project

Projects

SMS Smishing Detection App – Flutter, TensorFlow Lite, Android SDK Ongoing

- Developing a mobile app to detect and classify SMS as spam using an on-device TFLite model
- Integrating real-time SMS reading and classification with a lightweight Flutter interface
- Targeting 90%+ accuracy in detecting smishing attacks to enhance mobile security

Hospital Management System – Java, MySQL Dec 2024 – Jan 2025

- Developed modules for patient management, doctor scheduling, and secure billing system
- Designed relational database schema and implemented SQL constraints for integrity
- Created GUI using NetBeans, improving usability and data consistency

Skills

Languages: Python, Java, JavaScript

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, Flask

AI/ML: Machine Learning, Deep Learning, NLP, Prompt Engineering, RAG, TensorFlow, Scikit-learn

Tools Databases: Git, GitHub, MySQL, SQLite, Figma, Canva

Certifications

- NSDC – Cyber Security
- UiPath – Automation Developer Associate (Diploma of Completion)

Activities & Leadership

- Participant – IGNITEX 2025 National Hackathon (24-Hour AI Challenge)
- Host & Coordinator – TechKriti'24 State-Level Tech Fest
- Runner – Fashion Show, VTU Regional Fest 2022

Languages

Kannada – Native English – Native Hindi – Proficient
